Inset STAIR TREAD + NOSING

Inset Treads and Nosings are an ideal solution for walkways, ramps, landings and stair treads that require a strip of anti-slip abrasive material. The inset treads are available in bar or full abrasive.

FEATURES

RAMPS & WALKWAYS Inset treads and nosings are the ideal solution for providing an anti-slip surface. Install on ramps, walkways, platforms and stairs on most surfaces.

ANTI-SLIP SAFETY TREADS Reduce slip hazards with ADA and OSHA compliant, non-combustible, abrasive stair treads. Abrasive treads provide a high level of slip resistance.

CONTINUOUS COLOR No need to worry about walking off the color as the abrasive material filler is dyed throughout.
