

# Safe-T-Lume™

## EGRESS TAPE

The Safe-T-Lume Egress Tape is a photoluminescent acrylic tape which provides a cost effective option for marking egress paths. It is manufactured from 16 mil acrylic and is easy to install and clean. The material has been tested to UL 1994 and ASTM E2073 test standards and meets current IBC, IFC, and NFPA code requirements.

### FEATURES

**SAFE EGRESS** The glow-in-the-dark photoluminescent tape provides needed illumination for a safe exit.

**DURABILITY** The 16 mil thickness of the acrylic material used in the tape will provide years of reliable service.

**EASY INSTALL** The tape's peel and stick adhesive backing and ease of cutting makes installation simple and easy.

### DETAILS
