Retrofit Safety Grate

FLOOR DOOR FALL PROTECTION

ORDER FORM

Retrofit Safety Grates are designed for installation into existing openings where the door frame is already cast into concrete, or in place in a wooden frame. To correctly quote your retrofit safety grate order, please complete all fields.

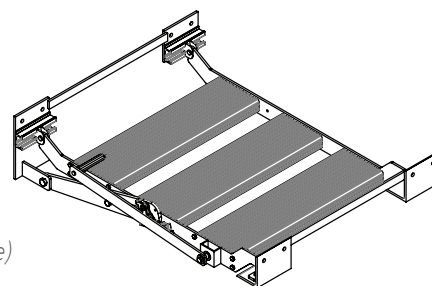

COMPANY	<input type="text"/>	PO#	<input type="text"/>	DATE	<input type="text"/>
CONTACT	<input type="text"/>	PHONE	<input type="text"/>		
EMAIL	<input type="text"/>				

FLOOR DOOR INFORMATION

Is this a Nystrom Floor Door? YES ☐ NO ☐

If YES, enter model number:

Enter concrete thickness: (inches below door frame)

MEASUREMENTS REQUIRED

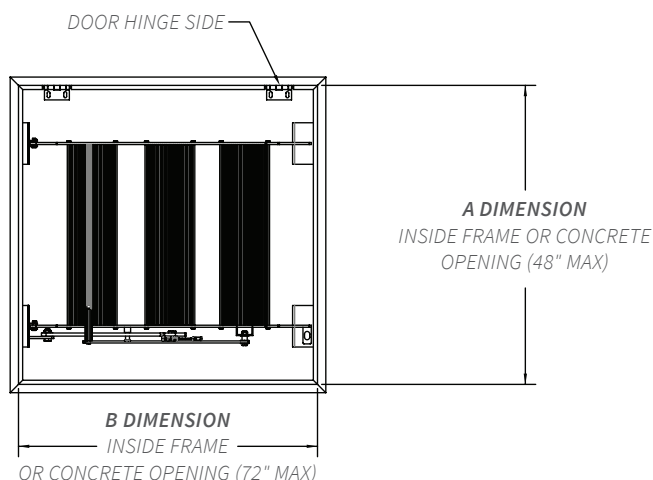

- With the floor door cover open, measure the opening of the floor at the installation surface

A (width) inches

B (length) inches (door hinge side)

- Order Part # **SGT-(A) x (B)-R**

NOTE: For doors over 48" wide or for Double Doors we will provide two (2) single Retrofit Safety Grates based on your dimensions.
