Architectural ACCESS DOOR

The Nystrom Architectural Access Door is built with the architect in mind. Constructed with an industry-standard steel door, the design further improves on strength and aesthetics.

FEATURES

ANTI-FLEX FRAME Fasteners are inserted through our patent-pending Easy Install Tabs, firmly fitting the door to the wall without flexing the frame.

PAINLESS INSTALLATION When fasteners are not required, quickly and easily install your new panel by bending our Easy Install Tabs over the drywall.

Draft Stop

ACCESS DOOR

Nystrom Draft Stop Door is a non-rated access door designed to provide access through wall openings of draft stop spaces in the attic while preventing a back draft from one section of the attic to another. This self-closing and self-latching access door allows for access from both sides of the door.

Materials

- B** Galvanized Steel
With primer coat. Use where corrosive resistance is required.

- S** Stainless Steel, Type 304
Extremely resistant to corrosion. With #4 satin polish finish.

Additional

- D** Double Leaf Panel
Recommended for easy access to large openings.

- C** Drip Cap
Directs running water away from the face of the panel.

- G** Gasketing
Applied to the doorstops for weather resistance. Also available with UL listed smoke seal.

- L** Louvered Door
Provides ventilation for special applications.

- M** Masonry Anchors
Attached to the frame to secure the panel when installed in masonry.

Latches + Locks

- C** Screwdriver Operated Cam Latch
Most common. Appropriate for standard applications.

- S** Security Screw
Highest security without a lock – requires special pinned allen wrench to open the panel.

- N** Knurled Knob Cam Latch
Unrestricted access – no tool required. Finger operated.

- K** Knurled Knob/Key Operated Latch Bolt
Patented ball bearing latch bolt operated by a screw-in type knurled knob or flush key.

- D** Detention Lock Preparation
For heavy-duty detention deadbolt lock. Used in maximum security applications.

- L** Key Operated Cam Lock
Provides an economical solution for controlled access when locks are required.

- M** Mortise Cylinder Lock Preparation
Matches project hardware. Accepts standard 1 1/8 inch mortise cylinder.

- H** Hex Head Cam
Common, requires an allen wrench to open panel.

- P** Pinned Hex Head Cam
Highest security without a lock – requires special pinned allen wrench to open the panel.

- J** Magnetic Latch
For Perimeter Air Return Door.

- NEW!** **T** Touch Latch
For N and R series doors.

Finishes

White Powder Primer Coat (Standard)

ANSI 70 Gray FP1

Traffic White FP43

High Reflectance White FP44

Note: White Powder Primer is the base color, all other colors have additional charges and may require longer lead times.
