
Fire Barrier for Expansion Joints

EJ-HTS and EJ-VTS

MR Credits 4.1 & 4.2: Recycled Content

This product is made from a fire barrier material encased in fiberglass reinforced aluminum foil. In figuring recycled content, we use the default value of 25% post-consumer recycled content for the components. Total recycled content by weight for the assembly is equal to 25% post-consumer Recycled content.

MR Credit 5.1: Regional Materials

Materials are not extracted within 500 miles of manufacturing plant.

EQ Credit 4.1: Low-Emitting Materials, Adhesives & Sealants

Not applicable. Product does not require adhesives or sealants in the field.

No Fire Caulk needed for installation.

EQ Credit 4.2 Low-Emitting Materials, Paints & Coatings

Not applicable. All paints and coatings are applied at the factory.

Note - No building products are LEED certified; only buildings are certified. Building products can only contribute to earning points in various categories.
