## ROLL-UP GRILLE

Nystrom's GRATEdesign roll-up grille is constructed of hollow extrusion rails joined by low-density polyethylene (LDPE) hinge. The cushion retained in the captive aluminum tread port, along with drainage holes, allows debris and moisture to flow through the grille.

### FEATURES

**DUAL TREADS FOR DUAL PURPOSE** Now offering the design flexibility to mix and match treads. Simply select treads for absorption, scraping or slip resistance.

**PVC FREE HINGES** Our PVC free, LDPE hinges raise the industry bar for performance in both flexibility and durability. Insist on LDPE hinges!

**ROLL BACK FOR EASY CLEANING** Easily maintain your entry system by rolling back the grille for regular sweeping or vacuuming to extend the life of your system.
