

# Rubber Coated

## HEAVY DUTY HINGE SYSTEM (RCP)

Nystrom's RCP series Rubber Coated Heavy-Duty Hinge System is rated for low speed vehicular traffic but is also commonly used on pedestrian walkways. The rubber coating with rubber hinges gives a quieter ride. This is the clear choice when a premium plate is required.

### FEATURES

**SOUND DAMPENER** The rubber coating with tapered edges assists in reducing noise from vehicle tires.

**HEAVY DUTY** Designed for low speed vehicular traffic and is commonly used in parking ramps and across walkways.

**VERTICAL MOVEMENT** This surface mounted system is designed with a hinged system to allow for vertical offset.

### DETAILS

**MATERIAL** 6063-T6 Aluminum

**FINISH** Rubber Coated

**MOVEMENT**

- Thermal: Horizontal and Vertical

**MOUNTING** Surface

**JOINT SIZE** 2-5/8 inches or 4-7/8 inches
